Bachelor of Science in Computer Science   July 2024
Relevant Coursework: Software Engineering, Algorithms, Data structures, Web Development, Android Development

SENIOR HIGH SCHOOL   Sta. Rosa, Laguna
CITI Global College   March 2020

EXPERIENCE

Shin-Etsu Magnetics Philippines Inc.   Biñan, Laguna
MIS Intern   Sept 2023 - Nov 2023
- Upgraded the MIS portal with PHP backend integration to enhance functionality and efficiency.
- Added new user-friendly features to improve the overall user experience.
- Provided ongoing user support, addressing inquiries and resolving issues to ensure smooth operation.

RECENT PROJECTS

Dress Rental Sales Monitoring System
- Collaborated within a 3-member team to develop a Dress Rental and Sales Monitoring System for clients, employing VISUAL BASIC and MS Access. This system enables users to oversee sales, generate comprehensive reports, and implement an automated email system for rent due-dates.

Ceasar Chat
- Caesar Chat is a web-based chat application. It encrypts messages using the Caesar cipher algorithm, manages server-side logic with PHP, and ensures smooth communication with AJAX and jQuery. Bootstrap provides a responsive layout for optimal user experience.

Gym Management System & Mobile Fitness Recommendation App
- Design and develop a Gym Management System and a Mobile Fitness Recommendation App. These systems, communicating via APIs, seamlessly manage gym operations and provide personalized fitness recommendations, offering a holistic solution for gym owners and fitness enthusiasts.

T-Shop Ecommerce Website
- A web-based eCommerce platform built with Laravel 10, jQuery, and Bootstrap. It features real-time order tracking using Pusher integration in Laravel and secure payment processing with Stripe. The platform ensures a seamless shopping experience with a responsive design, user authentication, and efficient order management.
